

BZJ-5038 (Pneumatic) Cuff Type Semi-automatic Packaging Machine+PE Heat Shrinkable Packaging Machine

Product introduction:

- ◆The up and down magnetic switch control system prevents mistakes whilst sealing and it protect the operator.
- ◆The plastic wrapper opening can be precisely adjusted based on the size of the products packaged.
- ◆The “Schneider” AC contactor allows for intelligent temperature control.
- ◆The large power conveyer motor as well as a stepless speed regulator ensures smooth feeding.

Notes: We can custominze non-standard machines according to customer requirements.

Technical parameters:

Model	BZJ-5038(Pneumatic)
Length of sealing bar	600mm
Voltage	220~240V,50/60HZ
Power	1.8KW
Capacity	0-6Packing/minute
Max.packing size	450×270×350mm
Min.packing size	250×60×60mm
Air source supply	170L/min 0.3-0.5Mpa
Width/thickness of the film	Max.550mm/0.03-0.25mm
Max.diameter of film roll	30mm
Machine size	1020×830×1980mm
Machine weight	225kgs
Shrink film	PE
