KDK-500 Capping Machine

The KDK-500 is a machine that automatically infeed caps onto bottles then automatically capping the bottles. This machine operates on different sizes of bottles with different types of caps: screw type, press-on, flip-off, pilfer-proof, & thread screw type (aluminum caps).

Features:

- Automatically stopping machine by detecting the shortage of bottle and caps.
- Friction clutch can be adjusted to exact torque required.
- Electronic speed adjustment by inverter.
- Automatic caps feeding design.
- Very flexible and easy to change parts for different types of cap.
- Perfect cap sealing with good looking.
- Easy cleaning up and low maintenance.
- Easy to connect with the labeling machine or other packaging line.
- All stainless construction meeting cG.M.P. requirements.
- Desiccant dispenser supplied as an option.

Technical data:

Capacity	30-~60 bottles/min
Compressed Air	3~6 kg/cm^2
Power Supply	AC 220V, 60/50Hz, Single Phase
Power Consumption	1 HP
Machine Weight	650 kg
Gross Weight	800 kg
Packing Size	2350 x1150 x1950mm
