

### GMS-A

Series tunnel laminar flow bactericidal oven

#### Product Elucidation:

It is improved to make it completely meeting the requirements of GMP. It has the advantage of good sterilization effect, small heat loss, energy-saving and - heat insulation, while it is in the ahead position of the domestic alike product.

Main Technical Specifications			
model	GMS-500	GMS-700	GMS-900
Applied bottle range	2-500 ml		
Sterilizer temperature	350 °C		
Net strip speed	50-250 mm/min		
Clean grade	100 class		
Cool method	100-class vertical laminar flow cool		
Power supply	380V 50HZ		
Electric heating tube	two holes quartz tube gold plated		
Power consumed	50kw	72kw	90kw
Dimension	4500*1630*1900mm	6000*1820*1900mm	8000*2020*1900mm
