

JC-120B Blister Card Cartoning Machine

DZ-120B Blister Card Cartoning Machine Suitable for automatic cartoning and box sealing of aluminum-plastic / aluminum-plastic-aluminum / aluminum-aluminum medicine plates, pillow type packing bags, oral liquid trays, suppositories, plasters, facial masks, eye masks, etc. in medicine, food, health products, cosmetics and other industries.

- Packing forms such as automatic feeding, box opening, boxing, batch No. printing, box sealing, waste rejecting, etc. are adopted. Featured by compact and reasonable structure, simple operation and adjustment.
- Servo/step motor, touch screen, PLC control system and man-machine interface display make operation more clear and convenient. With high automation degree, the machine is more user-friendly.
- The photoelectric eye automatic detection tracking system is adopted. No boxing is made if the bag is empty, so as to save packing materials to the utmost extent.
- With wide packing range and convenient adjustment, fast switching among various specifications and sizes can be realized.
- Change of specifications does not need change of molds, but can be realized through adjustment.
- Automatic stopping is available when the material boxing is not in place, and the main driving motor overload protection device is used, so that the machine is safer and more reliable.
- According to customer requirements, the upturning type safety protective cover is adopted, which is featured by simple operation and beautiful appearance.
- Linked production with the aluminum-plastic packing machine, pillow type packing machine, three-dimensional packing machine, bottling line, filling machine, labeling machine, ink-jet printer, online weight meter and other production lines and equipment can be realized.

- Various automatic feeders and boxing systems can be designed according to different requirements of packing materials.
- According to customer requirements, the hot melt glue machine can be equipped, and the hot melt glue spreading and box sealing and mechanical glue brushing and box sealing can be adopted.

Technical Parameters:

Model	JC-120B
Packing speed	40-70boxes/minute
Size range of carton	L (50-350) mm×W (20-210) mm×H (20-100) mm
Paper quality of carton	250-350g/m ³
Size range of use instructions	L (100-260) mm×W (100-190) mm
Paper quality of use instructions	55-70 g/m ³
Motor power	1.5KW
Power supply type	380V 50Hz Three-phase four-wire 380V 50Hz
Machine noise	≤80dB
Air supply	0.5-0.8 Mpa
Air consumption	120-160L/min
Outline dimensions	L3500×W1300×H1700 mm
Machine weight	1500Kg
