

## Vertical Cartoning Machine XQ-VC160

XQ-VC160 vertical box packing machine is a vertical continuous motion for cardboard packaging machine, which may be adjusted according to different pre-folded and pre-cut boxes with reverse or direct baffle.

### Function & Features

- The speed can be continuously adjusted between 10 and 70 boxes/min through a gearbox adjusted by a potentiometer mounted on the board.
- The electronic installation is in current safe mode.
- The painted lid provides lower protection.
- The upper part is double secured under altuglass protection.
- Surface treatment galvanized or nickel plating.

### Technical Parameters

Model	XQ-VC160
Production Capacity	60-80 pcs/min
Box Requirements	200-400 g/m <sup>2</sup>
Power	3kw
Power Supply	380V 50HZ
Compressed Air	0.6 mpa
Machine Size	3278*1805*1367 mm

	Min (mm)	Max (mm)
A	30	120
B	40	85
C	80	240
