

Single Side Labeling Machine SL-5218

Features:

1. Be applicable to square bottles or flat bottles in single side mark.
2. The independently shape structure is designed specially and independently to label irregular bottles in cosmetic industry. The optional air driving and roller labeling set can label round bottles precisely.
3. The top belt connects with the main transporting belt mechanically. It ensures the labeled bottle is vertical with the main transporting line

Parameters:

- producing speed: 80-200b/min
- labeling accuracy: ± 1 mm
- label max width: 200mm
- bottle size: height \leq 400mm, Thickness \leq 100mm
- label inner diameter: $\phi 76$ mm
- label outer diameter: Max $\phi 350$ mm
- outline size: 3048*1200*1650(mm)
- using power: 220V 50Hz 1500W
