

Transparent Film Packing Machine CW-280

This Cellophane Wrapping Machine with BOPP film is widely used in medicine, food, protect key products, cosmetics, daily necessities, stationery, cigarettes, poker and other industries in the package collection or single box.

The wrapped product has three advantages, namely, anti-counterfeiting, moisture-proof, dust-proof.

Improve the grade of products, improve product added value, improve the quality of the product appearance decoration.

This machine adopts imported PLC control, electrical integration of system operation. Reliable performance, easy to use, can be connected with box packing machine.

Features:

- The film loading and film drawing device use servo motor, it is more accuracy.
- The box pushing device is equipped with box get stuck protect part, it will jump off and stop automatically, which can ensure the integrity of the boxes.
- It can wrap different box sizes. only need to change 4 parts for different size, The push plate, The film fold plate, The angle making mould, The heat sealing plate stable performance and convenient operation and maintenance
- Adopt multifunctional digital frequency transformer and the speed can be varied infinitely.
- High filling accuracy, Adjustable and stability, beautiful, tidy, solid, and health packing appearance.
- The Cellophane Wrapping Machine can be connected with cartoning machine in line.
- Stainless steel 304 machine body and organic glass cover.
- Tear tape, ink printer, box turning over and stacking are optional.

Specification:

Model	CW-280
Tube material	BOPP film and golden tear tape
Packing Speed	40-70 pcs/min
Filling Size Range	(L) 60-220mm (W) 30-145mm (H) 12-70mm
Power	4.1KW
Reject rate	<=+-1%
Voltage	220V/1Phases/50/60HZ Or customized
Air Pressure	0.6-0.7Mpa
Dimension (LxWxH)	(L) 2180mm (W) 840mm (H) 1560mm
Weight	1200kg
