

SZX-18 Automatic Loading Case Packer

This type machine is design according product, and the clamp is designed for the different products. Clamp clamped by products, automatic positioning in the carton, when the fixture is raised, automatic discharge, finished product packing. it also apply to similar product packing bottle shape. The characteristics of the machine is multi-usage, is suitable for a variety of specifications products, fixture replacement simple easy to operate, convenient adjustment, industry widely.

- * PLC + touching screen control.
- * There is lack of bottle alarm downtime and no bottle no packing safety device.
- * Operation interface is simple and convenient operation.
- * Suitable for PET bottle, PP bottle, all kinds of plastic bottles, glass bottles, special-shaped bottles, cans, etc.

Variants & Options:

- * Can be customized by carton size.

Technical Parameter

Model	SZX-18
Applicable box size	$280\text{mm} \leq L \leq 550\text{mm}$
	$160\text{mm} \leq W \leq 400\text{mm}$
	$510\text{mm} \leq L+W \leq 910\text{mm}$
	$285\text{mm} \leq H+W/2 \leq 620\text{mm}$
Packing Capacity	10 cartons/Minute (Maximum)
PLC	Siemens S7-200
Main electric parts	Schneider
Touch Screen	Siemens
Motor	Servo-driven Taida Motor
Suck	Domestic brand
Frame material	Carbon steel
Motor brand	Taiwan brand
Air cylinder	AIRTAC
Automatic type	Fully automatic
Air Compressor	0.6-0.8 Mpa
Machine dimension	2000*2100*1840mm(L*W*H)
Weight	500kg
