

Three-Servo VFFS Packaging Machine ZD-320

320 VFFS packing machine is a Vertical Form Fill Seal Machine with a relatively small film width. Suitable for small bags. Usually equipped with Granule Z Type Elevator for feeding and Linear Weigher Machine for weighing. It also supports powder packaging, equipped with Auger Screw Conveyor.

Main features:

- 1.Three-servo control system with smooth and stable performance, accurate filling and efficient capacity;
- 2.Machine frame: 3mm &5mm thickness stainless steel frame, special mechanical design to make it run faster and collaborate better;
- 3.Servo driven film-pulling and film-loading to make the film position more accurate and finished bags more beautiful and neater;
- 4.Domestic and overseas famous brand components, and with years of market practice, ensure machine performance more stable and durable;

Technical Parameters:

Model	ZD-320
Capacity	20-100 Bag/Min.
Bag size	L:50-190mm, W:50-150mm
Film width	110mm-320mm
Film thickness	0.05-0.12mm
Film material	PP、 PE、 PVC、 PS、 EVA、 PET、 PVDC+PVC、 OPP+ laminated CPP etc.
Control system	PLC+Servo+Touch screen
Power supply	3 Phase/220v/60hz/2kw
Option devices or bagger	Gas flush device/Gas deflating device/Safety door switch/Anti-clap and reject device/Anti-clap and reject device/Hang-hole punch device/Encoder device
Machine frame	Machine frame in 3mm & 5mm thickness, SS304, machine body coated and non-finger printed treatment
Machine size	1300x900x1450mm (L*W*H)
Packing size	1500x1200x1600mm (L*W*H)
Net weight	350kg
Gross weight	500kg
