

BTB-150D Automatic Round Bottle Labeling Machine

Suitable for round bottles

Feature:

Adopt imported electromagnetic clutch with best accuracy

The machine shell adopts high class aluminum alloy anodic treatment, with long lift span service.

Adopt famous factory electric motor to ensure high load and long period operation

All parts and standard components are carefully made of stainless steel

With PLC control panel, These is a code printer on the machine if you need, it also can print three lines like expire date, valid date, batch number

Main Technical parameters:

Operating direction: Left or Right

Voltage: AC220V 50/60Hz Single phase

Machine size : 1800mm(L)*700mm(W)*1270mm(H)

Model	BTB-150D
Labeling Accuracy	1.0mm(Subject to the roughness of the plane)
Production(Bottle/Min)	60-150(According to the size of bottle and label)
Labeling speed (m/min)	40
Label Specifications	Adhesive sticker, transparent or opaque
Application of bottle	Outer diameter 40-100mm, Height 35-200mm
Application of label	Height 20-160mm, Length 23-280mm
Inner diameter of label roll	76mm
Outer diameter of label roll	350mm(MAX)
