

Automatic Heat Shrink Wrap Packaging Machine BS-350

- 1) This machine has an imported PLC automatic program control, easy operation.
- 2) Safety protection and alarm function that effectively prevents incorrect packaging.
- 3) The machine can be connected directly with the production line, no need additional operators.
- 4) Positioned stop function, without sticking knife or wasting film.

Technical Parameters:

Model	BS-350
Max height	<150 mm
Max width	(W+H)<400 mm
Max length	(L+H)<500mm
Cutting size	550*450 mm
Capacity	15-30 package/ min
Applications	POF/PE
Film shrinked	60%
Table height	780 mm (adjusted)
Power	1.35 KW
Voltage requirement	240V, 50/60 Hz
Air pressure	0.5-0.7 Mpa
External dimensions	1650*800*1450 mm;
Gross weight	300 kg
Wooden packed size	1850 * 1000 * 1650 mm
