

## *LQ-FL Flat Labeling Machine*

This machine is used to label the adhesive label on the flat surface.

Application industry: widely used in food, toys, daily chemicals, electronics, medicine, hardware, plastics, stationery, printing and other industries.

Applicable labels: paper labels, transparent labels, metal labels etc.

Application examples: carton labeling, SD card labeling, electronic accessories labeling, carton labeling, flat bottle labeling, ice cream box labeling, foundation box labeling etc.

### **Feature**

1. Labeling on flat top, and it's adjustable for different sized products. The labeling machine will automatically detects the label size and set the appropriate labeling parameters – a very useful feature for users with multiple products to label.
2. High precision and stability of labeling.
3. Made of stainless steel material, reasonable structure, beautiful appearance, small and light.
4. Intelligent control: automatic photoelectric tracking, automatic detection function, to prevent leakage and label waste, 7-inch touch screen debugging data.
5. The whole machine is easy to adjust for different product size and different label size.
6. The machine is light and convenient.
7. Taiwan optical fiber amplifier, digital adjustment accuracy.
8. Labeling machine produced accordance with CE certificated.

## Technical Parameter

<b>Machine Name</b>	<b>LQ-FL Flat Labeling Machine</b>
Power Supply	220V, 50Hz, 400W, 1Ph
Labeling Speed	20- 60 pcs/min
Labeling Accuracy	±1 mm
Product Size	W : 25-150mm L : 20-250mm
Label Size	W : 20-150mm L : 10-250mm
Inner Dia. of Roller	76 mm
Outer Dia. of Roller	300 mm
Machine Size	L*W*H: 1200mm * 600mm * 750mm
Machine Weight	85 KG
