

Automatic Film Labeling Machine For Plane Surface

Suitable for labeling on blank film or for covering bottom label, Example for electronic trade marker (bottom label is electronic component, surface label is film ect. Widely used on products in lines of electronic and cultural education).

Parameter:

Labeling speed	40~300pcs/min
Labeling accurate	±1mm
Product scope	Outter diameter Filmφ under 300mm' ; Inner diameterφ76mm Width 20mm~200mm
Label scope	Width20mm~150mm,Length (wind label direction) 6mm~100mm
voltage	220V
Equipment measurement	(L×W×H) 1550mm×720mm×1350mm
Conveyor height from ground	800mm (Customized)
