

ZHS-2B-1 Automatic powder filling machine

Introduction

This type of automatic powder filling machine is an economical packing machine suitable for packing powder and fine particles. Beyond that, it can complete bottle automatic positioning, filling and measuring. ZHS-2B-1 powder filler is made up of a filling head, a motorized chain conveyor and a positioning device. It fits to fluidic or low-fluidity materials, like milk powder, albumen powder, drug powder, condiment, solid drink, white sugar, dextrose, coffee, agriculture pesticide, talcum powder, etc.

Features

1. ZHS-2B-1 automatic powder filling machine has a stainless steel structure.
2. The transparent modular hopper can be easily dismantled for washing.
3. The servo motor and driving screw are of high precision and stable performance.
4. Such powder filler can store parameter formulas (at most 10 formulas) of a variety of products.
5. The automatic powder filling machine is controlled by PLC, touch screen, weighing module.
6. The auger parts can be replaced to meet the requirements of fine powder and granules.
7. The height adjustment hand wheel can conveniently adjust machine head height.

Technical Specification

Dosing Mode	Directly Dosing by Auger
Filling Weight (g)	окт.00
Packaging Accuracy	$\leq 100\text{g}, \leq \pm 2\%$; $100\text{-}500\text{g}, \leq \pm 1\%$; $\geq 500\text{g}, \leq \pm 0.5\%$
Packing Speed (Bottles/min.)	15-60
Power Supply	3P /208-415V 50/60Hz
Total Power (Kw)	01.июн
Air Supply of Automatic Powder Filling Machine	6 kg/cm ² , 0.05m ³ /min
Total Weight (Kg)	320
Overall Dimension (mm)	2000 × 970 × 2030
Hopper Volume (L)	45 (Enlarged Size 65L)
