

## Automatic Shrink Packaging Machine DY-ZDB

This machine is specially designed for drinks (pure water, beverage, fruit juice, dairy products) the height of the packaging requirements in the design and manufacture of the product forward conveying process, can be automatically combined into the package, save time, improve packaging efficiency. Touch screen layout, friendly interface, parameter setting fast, convenient man-machine communication and control. The best choice for the machine speed shrink packaging machine in the field of domestic.

### Technical Parameters:

Model:	DY-ZDB
Maximum packing size:	L600mm * W400mm * H350mm (mm)
Work efficiency:	8000 (pcs/h) (pcs/h)
Power:	21 (Kw)
Weight:	800 (kg)
Power Supply :	380 (V)
Mechanical dimensions:	L12000mm * W1100mm * H2100mm (mm)
