

## *HL-50 Automatic Tape Carton Case Erector Bottom Machine*

### **Equipment Features:**

1. Adopt international advanced technology manufacturing and use imported parts and components, electrical components and pneumatic components.
2. Adopt the vertical storage to store the cardboard, it can be supply the carton at any time, do not need stop the machine.
3. Apply the same size carton package at the same time, if need change the size, it can be manual operate(1-2mins)
4. Rationalized design, synchronous draw forming, fold and cover at the same time.
5. Lightweight, precise and durable mechanical performance, operational process without vibration, stable operation, long life, high efficiency
6. Install the bright organic glass protective cover, open the door, the machine will stops automatically to prevent accidental operation
7. Can be stand-alone operate and also can use in the automatic packing line.

### **Technical Parameters:**

- Model: HL-50
- Capacity: 8-10carton/min
- Carton temporary stock: 100pcs(1000mm)
- Carton size: L250~650xW150~400xH100~350mm
- Power: 220V 200W
- Air pressure: 6kg/cm<sup>3</sup>
- Air consumption: 450NL/min
- Size: L2400\*W2100\*H1550mm
- Weight: 450kg
- Adhesive tape size: 48, 60, 75mm
