

ZTV-500B Semi Automatic Vacuum Packaging Machine

This Unit consists of elevator, weighing machine, platform, semi-automatic vacuum machine and product conveyor, etc. The spec of the product is adjustable according to the material and the bag has nice and continuous sealing. Cause adopt premade bag the good-looking appearance is one of the main features. This unit is widely used in food, additive tea, pharmacy, chemical and other industries.

Main performance and functional characteristics:

1. Equipped with safety protection, comply with firm's safety management requires;
2. Use intelligent temperature controlling machine to have accurate temperature control; ensure the artistic and neat seal;
3. Use PLC Servo System and pneumatic control system and super touch screen to form the drive control center; maximize the whole machine's control precision, reliability and intelligent zed level;
4. Touch screen can store the technical parameters of various kinds of products, no need to reset while products changing;
5. Have error indicating system, helping to handle the trouble immediately;
6. Make block bags and hanging bags according to customers' different requires;
7. Both stainless steel machines and carbon steel machines;
8. Single-belt transportation, placidly and quickly, small friction, little waste;
9. Have stainless steel model and carbon steel model for choose.

Technical parameters:

Model	ZTV-500B
Measuring range	100-2000g
Measurement accuracy	±0.2-2%
Bag Type	premade bag
Operation Mode	Intermittent
Speed	Up to 25bags/min
Bag Width	60-300mm
Film Thickness	0.04-0.12mm
Voltage	AC 220V/ 50HZ, 1phase or per customer needs
Power Consumption	5.5KW
Compressed Air Requirement	0.6MPa, 0.36 M3 / Min
Weight	1000KG
Dimension	6600x1100x3600mm (L x K x G)
