

Full Automatic Box Sealing Machine PL-H300

Full automatic box sealing machine is more intelligent than semi box sealing machine. It realizes box opening, product filling, box gluing and box sticking full automatically.

Characteristic: Stable performance, easy operation, high efficiency, labor-saving and superior

Features:

1. Controlled by PLC, frequency conversion and speed regulation are available. Electric components are world famous reliable brand.
2. Manual operation and automatic operation are available. Machine stops if overload.
3. Display function of machine breakdown, sealing speed and output.
4. Stable performance. Automatic lubrication control.
5. Realize box opening, product filling, box gluing, box sticking. And print 3 rows lot number.

Technical parameter:

Model	PL-H300
Capacity	25-55
Adjust range (L*W*H)	(180*230)*(100-200)*(30-65) mm
Weight	700 kg
Dimension	L*W*H 3050*860*1600mm
Air Pressure	0.4-0.8Mpa
Power	4 Kw
Voltage	220v/ 380v
