

Semi Automatic Bottle Shrink Packaging Machine YSBL-5038B

The bottle shrink packaging machine include two parts: semi-auto sleeve wrapper and PE film shrink wrapping machine.

1. The machine is suitable for collective packaging of drinks, beer and mineral water bottles with or without paper support, also suitable for cans, carton, insulation board, in the field of beverage, oil, hardware accessories, building materials, etc.
2. Conveyor part is driven by high power dc motor to facilitate film convey. Its advantage is to stepless speed regulation, so the carrying rate is higher. It could work a longer period steadily.
3. Adopts German advanced technology, elaborating according to European process. Imported converter to achieve to 0-10m/min. Adjustable speed range.
4. Ultra strong cooling system of the semi automatic shrink sleeve machine ensures quick shape formation after heat-shrinking.
5. Electrical units are chosen from international famous brand.
6. Below heating tube part of semi automatic shrink sleeve machine adopts drawer design, easy to maintain.

Product parameter:

Model	YSBL-5038B	Model	YSBS-6040
Voltage	220V 50/60HZ	Volt	380V 50/60HZ
Power	1.8 KW	Power	22 KW
Packing speed	2 - 5 pcs/minute	Packing speed	0 -10 m/minute
Loading	30 Kg	Tunnel size	1800×600×400 mm
Film width/thickness	Max500mm/0.04-0.12mm	Loading	50kg
Max packing size	450×270×350 mm		
Min packing size	250×50×60 mm	Suitable film	PE、POF、PVC、PP film
Machine size	1020×830×1980 mm	Machine size	2800×840×1375 mm
Weight	300kg	Weight	270kg
