

Automatic Vertical Twin Bags Packing Machine WP-H

Feature:

- 1) PLC control, man-machine interface, easy to operate and maintain.
- 2) Three servo motors: two servo motors for both film pulling driven system, one servo motor for horizontal sealing driven system, machine will achieve a high speed and more durable.
- 3) Vacuum film pulling belt to reach a high speed.
- 4) It is suitable for small pillow bag and easy-flowing products, such as beans, corns, rice, sugar and so on.
- 5) Double lanes bag forming tubes, save space of factory but can do a high production capacity.

Application:

- 1) Applicable bag type: pillow bag.
- 2) Applicable film material: a variety of laminated films, film thickness range 0.04-0.09mm.
- 3) Following bag types we have other models of packing machine can make, if you are interested in it, please feel free to contact me.

Specification:

Model	WP-H
Film Width	150-350mm
Bag Size	L*W=(50-165)*(50-300)mm
Packing Speed	2*90bags/min
Film Pulling System	Vacuum film pulling system
Gas Pressure	0.8MPa
Gas Consumption	0.6m ³ /min
Power Requirement	6KW/220V/50(60)Hz
Machine Size	L*W*H=2050*1850*1915mm
Machine Weight	680kg
