

Semi-Automatic Packaging Machine With Chain Bucket LD-series

Application:

1. Fragile material: Chips, shrimp slices, crispy rice.
2. Uneasy measuring material: tea leaves, dumpling, candy, jelly, bean sprouts.
3. The pouch bag into big bag of drugs, commodity, daily use, food, small hardwares, etc.

Kindly Reminder:

We have experienced team of R & D engineers who can customize packaging solutions according to your product characteristics.

Description:

- New design with perfect fashion, more reasonable structure, more advanced technology.
- Imported PLC control system, colorful touch screen, easy operation, intuitionistic efficient.
- Standard positioning with imported servo film transporting system and mark sensor, Super excellent capability for complete machine, perfect packaging.
- With auto warning protection function to minimize loss.
- Various kinds of bag, it could provide the pillow bag, angle fold bag, hang hole bag, link bag, etc.

Parameter:

Model	LD-720	LD-900	LD-1050	LD-1200
Film Thickness	0.04-0.12mm	0.04-0.12mm	0.04-0.12mm	0.04-0.12mm
Bag Length	100-500mm	100-600mm	100-800mm	100-1000mm
Bag Width	180-350mm	260-430mm	290-505mm	290-580mm
Film Roll Diameter	Max.320mm	400mm	400mm	400mm
Pakaging Rate	5-55bag/min	5-20bag/min	5-20bag/min	5-20bag/min
Film Width	150-Max.720mm	Max.900mm	Max.900mm	Max.1200mm
Measurement Range	4000ml	1-25L	1-25L	1.5L-45L
