

Ice Cream Cup Shrink Sleeve Labeling Machine

The most advanced empty ice cream cup and yogurt cup shrink sleeve labeling machine in CHINA. Whole machine line is composed of automatic cup stack loading and separation feeder, automatic empty cup shrink sleeve applicator, automatic empty cup recirculating air shrink tunnel group and automatic empty cup stack collector. The top speed reaches 200 cups per minute without any compromising perfect heat shrink of the sleeve labeling.

Technical Parameters:

Sleeve Labeling Type	Vertical
Main Machine Size	1740L x 1000W x 2100H mm
Main Body Material	SUS 304, SUS 316
Cup Material	themoforming or injection PP/PS, Metal, etc.
Labeling Position	Full Length/Top &Bottom Wrapped, etc.
Shape Application	round, square, conical, rectangular, triangle, etc
Cup Label Diameter Cutting	Φ20-Φ160mm
Label Length Cutting	Max 200mm
Label Material	PVC, PETG, OPS, PE, POF, PLA
Thickness of Label	0.025mm ~ 0.13mm
Sleeve shrink speed	9000-12000/hour, speed based on customer cups
Voltage	AC 3P 220 / 380V, 50/60HZ
Optional Equipment	Auto Cup Feeder, Auto Cup Restacker, Hot Air tunnels
