

## Trough Type Mixer CHJ series

This machine is widely applied to the powder materials mixing process in the industry of pharmaceutical, foodstuff and chemical.

### Structure & Function

- S-shape paddle mixes the materials uniform.
- Processing period can be preset.
- Safety protection device shut the machine down once vessel cover opened.
- Process carried out in a total enclosed and clean space.
- Completely comply to GMP standard.

### Parameters

Model No.	CHJ-150	CHJ-200	CHJ-400
Mixing Power (KW)	3	5.5	7.5
Dumping Power (KW)	0.55	0.55	1.1
Working Temperature (°C)	≈65		
Mixing Paddle	Single		
Speed of Bi-axial (R/min)	24		
Speed Reducer (For Option)	Worm Gear/Cycloid	Worm Gear/Cycloid	Worm Gear
Size of Shape (mm)	2090x600x1100	2090x600x1100	1950x760x1300
