

## Compact Pyramid Tea Bag Machine With Envelope KST-FC16

Designed for pyramid tea bag packing. Bag type is rectangular, three sides sealing. Applicable packing materials are PLA, Nylon, non-woven fabrics, etc. To operate the machine needs compressed air supply with a pressure of more than 1.2 MPa. Working capacity is 30 – 40 bags per minute.

### Parameters

Model	FC16
Working Speed	30~40 bags/min
Accuracy	±0.2 grams/bag
Filling System	4 or 6 electronic vibrator scale
Packing Film	PLA, Nylon, Non woven fabrics etc which can be sealed by ultrasonic method
Film width	120mm, 140mm, or 160mm
Sealing Type	3-side sealing
Sealing method	Inner: full ultrasonic sealing Outer: heating sealing
Filling range	2~10g / bag
Air consumption	≥1.2Mpa
Power	220V, Single phase, 50/60Hz
Weight	550Kg
Overall dimension	2120 * 1600 * 2200mm
