

## *Full Auto Chocolate Wrapping Machine U-SBFP450*

U-SBFP450 series automatic packing machines are mainly used for the folding and envelop style packing of chocolate, hard candy, pressed candy etc. in certain sizes and shapes. The model is compatible with various types of packaging materials. Meanwhile, brushing packing is also available on this model by replacing several tool parts.

U-SBFP450D is an upgraded version based on U-SBFP450, which adds in additional label wrapping and double layers wrapping packing function, providing more variety and flexibility in packing style.

U-SBF500 series machines are used for arranging and disordered products so that they can be fed into the packing machine steadily and quickly. The machine includes several feeding system, transportation belt and different kinds of steel rails and is controlled by the connecting packing machine, which ensures the excellency and reliability of the packing performance.

### **Technical Parameters:**

<b>Product name</b>	Full Automatic candy/chocolate folding packing machine
<b>Product model</b>	ZB-FP450
<b>Packing Speed</b>	200-360pics/min
<b>Main Function</b>	Packing chocolate/candy
<b>Keyword</b>	Candy packing machine
<b>Material</b>	Stainless Steel 304
<b>Product Dimensions</b>	10-80 *4- 45 *4-35 mm
<b>Air Supply</b>	0.6 MPa
<b>Usage</b>	Hard candy,pressed candy,chocolate.etc
