

Plastic Bottle Production Machine XLB-04CE

Pet Blowing Bottle Machine. We manufacture every set of equipment with 100% attention. We keep promise to every client using best quality of material, advanced technology, and famous brand of accessories such as PLC, motor, etc. In addition, if you have any questions of our machine, please kindly feel free to contact us.

The Plastic Bottle Production Machine is equipped with advanced process, which has longer service life for use and there is no special need of maintaining. Due to the proper size and compact design, it can be placed everywhere in order to help release space of litmed places.

The clamping part is realized by positioning the rack balance position, the latter three are the template, and the double crank arms are linked. The clamping cylinder is driven by the electromagnetic directional valve to drive the cylinder connecting rod crank arm. The heating roller chain plate of our Plastic Bottle Production Machine is detected and positioned by a work station of the stepping cylinder and a photoelectric switch. The stepping cylinder is in the promotion station and continuous production cycle. The preforms are transferred by the feeding system, and the manipulator installs the preforms on the bottle seat.

Technical Parameter:

Model	XLB-04CE	
Theoretical output	5000-6000 pcs/h	
Finished bottle	Max. bottle volume	1.25L
Max. neck diameter	38mm	
Max. bottle diameter	105mm	
Max. bottle height	330mm	
Mold specifications	Cavity	4 cavity
Mold thickness	120mm-230mm	
Open stroke	240mm	
Electrical system	Power voltage	380v/3Phase/50HZ
Installation power	60kw	
Actual power consumption	50kw	
Air source	Recommend air compressor	1.0m ³ /min 30Kg
Cooling water	Recommend water chiller	5HP
Blower size	Length*width*height/weight	6200*2280*2160mm/620kg (2 sets)
