

External Type Vacuum Pack Machine CE-600LDZQ

CE-600/DZQ series External Type Vacuum Packing Machine not only can do the process of sealing, but also vacuum extraction or inert gas flushing after vacuum cycle.

Features:

External Type Vacuum Packing Machine has chamber less design with double gas nozzles, so its application is not limited by the size of vacuum chamber.

Application:

External Type Vacuum Packing Machine is suitable for package which has low demand on vacuum degree but high demand on the purity of inert-gas. Model CE-600DZQ/LS with double heating system is suitable for thick plastic or compound bag. The special sealing length 700, 800 or 1000 mm is available.

Technical Parameter:

Model	CE-600L/DZQ
Voltage (V/Hz)	AC 220/50
Sealing power (W)	600
Motor power (W)	750
Air compressor power (W)	1100
Sealing length (mm)	600 700 800 1000
Sealing width (mm)	10
Distance from sealing center to floor(mm)	1250
Vacuum pump rate (m³/h)	20
Film thickness (Single layer) mm	≤ 0.18
External dimension (LxWxH) mm	800 x 900 x 1900
Net weight (kg)	255
