

Semi Automatic Bag In Box Filling Machine

This bag in box filling machine is a small smart dosing machine with high filling precision. It includes filling and capping at one station. It is easy to set up and adjust the filling volume. It is widely used in bag in box filling of all kinds of liquid and semi-liquid like wine, edible oil, fruit juice, additives, milk, syrup, maple syrup, tomato sauce, fruit jam, egg paste, liquid fertilizer, soysauce etc.

Easy operate, smart BIB filling machine

This machine consists of stainless steel frame, electric control system, quantitative filling system, vacuum pumping system, capping system.

Technical Parameter

Model	Bag In Box Filling Machine
Filling speed	4-5 bags/min (when filling 20L)
Filling range	1-25L(customization)
Filling accuracy	$\leq \pm 1\%$
Air pressure	6-8bar
Total power	150W
Power supply	AC 220V 50/60Hz
Machine size	L1005*W1315*H1795mm
Net weight	200KG
