

## FFT Cellophane Wrapping Machine

Adopting European technology with many years experience of producing packing machine, we designed this cellophane overwrapping machine for packing both singly or assembly boxes. The FFT series have stable performance and wide usage That offer box package with good outlook and nice sealing, prevent dirty and wet entering inside. The machine is sold at home and abroad, won good reputation from our customer.

Uses: This machine is widely applicable to the packaging of various single or several boxes articles, such as the medicine, health products, foodstuff, daily cosmetics, stationery articles, and audiovisual products, or the collective blister pack of multi-piece box articles (with gold tear tape).

### Parameter:

(packing size)L×W×H	(80-340) mm×(70-150) mm×(30-130)mm
(packing speed)	(20-40 P/M
Applicable Film	BOPP/PVC
(packing material detail )	Φ75 mm 0.021-0.028 m
Gas Consumption (L/min)	(20-30)L/min
Power (TN-S)	2.25k
Power Consumption (kw)	1.5Kw
General Noise (A)	<65dB(A)
Dimensions (L*W*H) (mm)	1300mm×1250mm×1050mm
weight(Kg)	1000Kg
Voltage(V)	50HZ/AC220V
