

XH400-2SB Double Chamber Vacuum Packaging Machine

This series of vacuum packaging machine has the function of vacuuming, sealing, printing and cooling in one-time processing. It can prevent effectively mildew, corrosion and dampness and can remain fresh and extend the shelf life of the product.

Applicable material

400 Double Chamber Vacuum Packaging Machine is suitable for vacuum packaging of food, medicine, aquatic products, chemical raw materials and electronic components, etc.

Technical parameter

Model	XH400-2SB
Voltage	380V/220V/50Hz
Packing speed	1-4 pec/min
Sealing length	500x10mm
Power	2.3KW
Vacuum chamber size(mm)	570x540x118mm
Equipment size(mm)	1350x850x980mm
Weight	250kgs
