

OC-420LY Automatic Air Free Liquid Pouch Packing Machine

The Automatic Air Free Liquid Pouch Packing Machine is designed for filling and back sealing of pouched liquids such as pouched milk, pouched water, etc. The filling volume and speed can be adjusted according to the needs of the operation, and the sealing method can be customized according to the needs of the operation. This Automatic Air Free Liquid Pouch Packing Machine can automatically print the batch number or production date, and cut easy-to-tear openings on the finished packaging, which makes the packaging process easier and more convenient.

Features

All parts of our Automatic Air Free Liquid Pouch Packing Machine that come into contact with the packaged material are made of stainless steel or non-toxic materials to ensure safety and hygiene. Moreover, its packaging speed is fast, and the position of the cutter can be adjusted at will during the operation of the machine. The controller adopts Chinese and English display, which is intuitive and clear.

Application:

Fill free flowing liquid, such as water, sauce, edible oil, cream, seasoning tomato sauce, honey, sauce, shampoo, shower gel and many more.
