

## *Model DXD05CW180 Envelope packing machine*

Model DXD05CW180 offer a new aspect for envelope packing solutions. This machine connect with model DXDC50 as an envelope packing machine. It helps model DXDC50 get pyramid tea bag with envelope. The different kinds of materials packed with envelope, will keep materials in fresh and good taste. It is controlled by PLC, touch screen display, Operating easily.

### **Characteristics**

- ◆ Modular design, both inside and outside independent switching for pyramid tea bag and envelope bag.
- ◆ For a variety of pyramid bag sizes pack in the envelope bag.
- ◆ Pyramid bag jam with alarm stop.
- ◆ With a stack and count output.
- ◆ Machine meet GMP and CE certification requirements.
- ◆ Servo control length of traction and ensures printing logo on a properly place.

## Technical data

Output	Max.50bags/min
	(85mm×80mm) (Option)
	(105mm×100m) (Option)
Envelope dimension	(95mm×90mm) (Standard dimension)
Output in a group	5 bags
Air pressure	0.6MPa
Air consumption	200 L/min
Power supply	220V 50Hz / 60Hz
Power	2.1KW
Envelope materials	BOPP20/VM—PET12 / PE40, Paper / P.E, OPP20 / Pearl35
Option	Date printing device
Thickness	55um~90um
