

High Speeds Cooking Oil Packing Machine TTS - 320L

Features

1. Scientific machine structure design by using firm steel material to make sure it is 100% stable, durable, and less noisy.
2. Most of the famous electric parts we use are famous brands, such as Germany Siemens, Japan Mitsubishi, Japan Panasonic, and France Schneider.
3. Big touch screen for easy access and operation, English is provided, also another language can be customized.
4. 8 sets of parameters can be saved, huge convenience for operation.
5. Machine finishes the whole procedure of feeding, weighing, bag making, and date printing. Less labor but more capacity, less management but more efficiency.
6. All kinds of warning systems and human protection systems are provided, to achieve the aim of safe and efficient production.

Technical Parameters

Model	TTS - 320L
Film width	MAX.320mm
Bag size	W:40-150mm L:50-200mm
Film thickness	0.04~0.08mm
Packaging speed	5~50bag/min
Power	220V 50/60Hz 2.2Kw
Packing material	BOPP/PP, BOPP/PE, PET/AL/PE, NY/PE, PAPER, PLA, NON-WOVEN FABRICS
Size	L900 * W750 * H1800mm
Net weight	350kg
