

## Mini Doypack Packing Machine

The Mini Doypack Packing Machine is a kind of special equipment that helps to automate packaging into doypack-style pouches. Stand-up pouches, also known as doypack, are characterized by their unique shape which allows them to stand upright on shelves and increase visibility and brand exposure. Hence, this machine can handle different types of packaging materials e.g. laminates, plastics, and foils thus ensuring variability in the product range.

### Technical Specification

Model	Mini Doypack Packing Machine
Packing Speed	30-50 bags/min
Bag Size Range	(L) 80-200mm, (W) 50-150mm
Filling Capacity	5-200g (adjustable)
Bag Type	Doypack, Stand-up Pouch
Film Width	Max. 320mm
Film Material	Laminated Film, PP/PE
Control System	PLC Control
Power Supply	AC 220V, 50Hz
Power Consumption	2.5 kW
Air Pressure	0.6 MPa
Air Consumption	0.4 m <sup>3</sup> /min
Machine Weight	600 kg
Overall Dimensions	1200mm x 1400mm x 1700mm
