

TL-60-4A Automatic Silicone Lipstick Machine

Silicone Mold Lipstick, Slant Lipstick, Cosmetic Pencil

Features

1. Save room, easy operate
2. Filling with 2 separate lifting tanks, easy to change Material
3. Ceramic valve core with more accurate filling volume
4. Environment friendly refrigerant by cooling part
5. The release structure adopts full servo control, ensure the release stability
6. Filling mold with integrated silicone gel, filling by servo piston to ensure quantitative accuracy
7. Automatic heating, filling, freezing, releasing, screw down lipstick, mound cycle production

Output

- 24-32 pcs/min

Power

- 3Φ-380V 50/60Hz 14Kw

Compressed Air

- 0.6-0.8 Mpa
