

## ROY-12P Automatic Carton Forming Machine

ROY-12P is a carton forming and bottom sealing packing machine which control by PLC and operate from HMI system. Machine can do 12 carton forming and tapping in every min. very efficiency and convenient. Carton board can be loaded without stopping the machine. Packing line will not stop during the continuous packing flow. Carton packing size can be adjust manually. Easy to operate and maintain.

### Technical parameter:

Model	ROY-12P
Production speed	12-15 ctns/min
Carton storage quantity	100pcs (1000mm)
Carton size	L250-450×W150-400×H100-400mm
Power supply	110/220V, 50/60Hz, 1 Phase
Power	200W
Applicable tape	48/60/75mm (Choose one type)
Air compressing	6kg/cm <sup>3</sup>
Machine size	L2000×W1900×H1450mm
Machine weight	450kg
