

KZL High Speed Granulator

KZL High speed Granulator Series are widely used in pharmaceuticals, chemical industry, and foodstuffs with good stuffs with good effect. It's designed reasonably with filter net, shaft. It can gring a block of material that is easy to smash. The specialized friction filter cans gring solid particles on a big block according to centrifugal force principle. It can replace sway granule machine.

Technical Parameter

Type	80	120	160	200
Length (mm)	185	185	185	185
Diameter of filter hole (mm)	1--8	1--8	1--8	1--8
Product capacity (kg/h)	50-100	100-200	150-300	200-400
Motor power (kw)	0.55	1.1	1.5	2.2
Running speed (r/min)	1500-3000	1000-1500	1000-1500	800-1000
Overall size	650x450x1000	1000x800x1200	1060x850x1350	1100x1000x1500
