

## MD-JL60 Single Row Capsule Coffee Filling Machine

MD-JN 60 is an economical filling machine specially designed for pharmaceutical, health care products, and coffee pod filling and sealing. This type of coffee capsule packaging machine adopts a PLC program control system, HMI operation, speed variable frequency adjusting technology, servo-pneumatic joint control, etc. The MD-JL60 coffee capsule packing machine fully automates processes such as cup lifting and dropping, material feeding and measuring, vacuuming, film removal, sealing, lid application, capping, counting, and more.

### Features

1. Max. BPM to 40.
2. Splitter conveying module system.
3. Servo screw measuring for high weight accuracy.
4. Mechanism modular design for easy replacement.
5. Automatic alarm and shutdown for production and safety errors.
6. Closed working conditions, safe and reliable.
7. Extensible linear layout.

### Parameters

Model	MD-JN60		
Measurement Method	Screw Filler		
Production Efficiency	30-40 bags/min		
Packing Materials	Fine powder		
Packing Accuracy	±0.2g (Depending On Material Conditions)		
Power Supply	4kW/220V	Air Consumption/Pressure	6-8bar/0.6m³/min
Machine Dimensions (L.W.H)	2032mm*1020mm*2333mm	Machine Weight	450kg
