

RZ8-300E Premade Bag Packing Machine

Introducing the RZ8-300E Premade Bag Packing Machine, a versatile and high-performance solution designed to meet a wide range of packaging needs. With the ability to handle pouch widths up to 300mm, the RZ8-300E Premade Bag Packing Machine is ideal for various applications, from small to large packaging formats, making it a perfect fit for diverse industries.

Advanced Features of the RZ8-300E Premade Bag Packing Machine

The RZ8-300E Premade Bag Packing Machine is engineered with advanced safety and operational features. It includes a safety door for secure operation, a vacuum pump for effective air removal, and a grooved cam system for precise pouch handling. The RZ8-300E Premade Bag Packing Machine also features a wipe/wash down structure ensures easy maintenance, while the guide bar type air exhaust system promotes efficient air expulsion.

Efficiency and Reliability of the RZ8-300E Premade Bag Packing Machine

For enhanced operational efficiency, the machine features an up-to-down pouch magazine, facilitating smooth pouch loading and reducing downtime. The No Bag No Fill No Seal system minimizes waste by ensuring that the machine only fills and seals properly positioned pouches. The RZ8-300E Premade Bag Packing Machine also includes fault alarms that promptly alert operators of any issues, while data logging capabilities allow for detailed tracking and analysis of production performance.

User-Friendly Design of the RZ8-300E Premade Bag Packing Machine

The RZ8-300E Premade Bag Packing Machine is controlled via a PLC system and an intuitive HMI interface, providing a user-friendly experience and precise control over the packaging process. These features ensure that RZ8-300E Premade Bag Packing Machine delivers consistent results

and maintains high standards of efficiency and reliability, making it an excellent choice for businesses focused on quality and performance.

Ideal for a wide range of packaging requirements, the RZ8-300E Premade Bag Packing Machine combines flexibility, advanced technology, and robust performance, making it the perfect choice for businesses looking to enhance their packaging operations. Whether you're dealing with small or large packaging formats, the RZ8-300E Premade Bag Packing Machine is the perfect choice for businesses looking to enhance their packaging operations and achieve superior results.

Main Specification

Model	RZ8-300E Premade Bag Packing Machine
Bag Size	W: 180-300 mm; L: 150-450 mm
Filling Range	≤ 2500 g
Packing Speed	≤ 50 bags/min (depending on products and bags materials)
Weight	1800 kg
Dimensions (L*W*H)	2080 mm*1720 mm*1650mm
Total Power	3.62 kw (Two heat seals, without vacuum pump)
Driving Power Source	380 V three-phase five line 50 HZ (other power can be customized)
Compress Air Requirement	≥ 0.4 m ³ /min (Compressed air is provided by the customer)
