

## *Automatic Round and Square Bottle Labeling Machine*

This automatic double-sided labeling machine is designed for high-efficiency labeling on both sides of square and round bottles. It ensures precise alignment and application of labels, making it suitable for industries such as food, cosmetics, pharmaceuticals, and chemicals.

### **Key features include:**

**Dual-Sided Labeling Capability:** Can apply labels on both sides of bottles in one pass, suitable for square, round, and flat bottles, improving productivity and reducing manual handling.

**Adjustable Labeling Station:** Equipped with adjustable label heads and conveyor width, enabling it to handle a wide range of bottle shapes and sizes with minimal changeover time.

**High Accuracy and Stability:** Uses advanced sensor technology and servo motors to ensure accurate and consistent labeling, even at high speeds.

**User-Friendly Touchscreen Interface:** Features an intuitive touchscreen for easy operation and real-time monitoring, allowing operators to adjust speed, label position, and other settings.

**Conveyor and Guiding System:** Built with a reliable conveyor system and guiding rails to ensure bottles are stably transported and aligned during the labeling process.

## Parameter

Labeling type:	A square and round bottle
Applicable bottle size:	Width:30-80mm Dia:30-100mm
Applicable label size:	Height 15-130mm
Capping speed:	500-6000 bottles/hour
Power:	3KW
Voltage:	220V/50Hz
Working air pressure:	0.4-0.6Mpa
Air consumption:	1-3m <sup>3</sup> /min
Machine size:	3000×1500×1800mm
Machine weight:	350kgs
