

GPI-50+GPH-50 Automatic Flaps Folding Carton Sealer with Corner and Side Carton Sealer

The quality of this machine is excellent, is suitable for automatic I-shaped sealing of cartons of various specifications at the same time, without manually adjust. It not only saves labor but also improves efficiency. The machine extensive use in Food, Medicine, Cosmetics, Toy, Electronics, Print and other industries.

FEATURES

- H type sealing: Automatic folding and sealing machine is matched with automatic four-corner sealing machine to form automatic “H” sealing.
- Intelligent adjustment: Automatic adjustment of machine width and height according to carton specifications, suitable for carton sealing of different specifications at the same time.
- Beautiful effect: the sealing result is smooth, standard and beautiful.
- The machine works efficiently and saves manpower.
- The automatic sealing machine is easy to operate, economical and durable, safe, and has the lowest failure rate.
