

## *ZT-480 Rotary Vacuum Forming Machine Skin Food Tray Vacuum Sealer*

The ZT-480 rotary vacuum packaging machine is designed to tightly conform packaging materials to the surface of products. It is typically used for large-scale production or applications requiring manual operation. The machine features a manually operated button to rotate the turntable automatically, heating and adhering thermoplastic packaging materials (such as plastic films) to the product to complete the packaging process.

### **Product Description**

#### **Advantage**

- **Rotary Operation:** Utilizes a rotary mechanism to double the efficiency.
- **PLC Touchscreen:** Equipped with a PLC touchscreen for easy operation.
- **Material Construction:** Made of stainless steel and aluminum.
- **Versatile Functions:** Capable of vacuum packaging, box sealing, and other functions.
- **Pneumatic Turntable:** The rotary worktable is pneumatically controlled, rotating to the work position at the push of a button.
- **Mobility:** Features casters at the bottom for easy movement.
- **Multi-Mold Capability:** Can accommodate up to 4 molds, allowing simultaneous production of 4 products.
- **Optional Gas Flush Packaging:** Offers the option for gas flush packaging.

## Technical Parameters

Model	ZT-480
Voltage	3phase 220/380V 50-60Hz
Pump Power	9kw
Pump Capacity	3531.5cft/h(100m <sup>3</sup> /h)
Work efficiency	1-4times/min
Result	Seal/Gas/Skin
Tray Size	10.2 x 7.1 x 1.0 inch
	(260X180X25mm /Custom)
Dimension	50.8 x 52.4 x 57.3 inch
	(1290x1330x1455mm)
Weight	≈992.1 lb(≈450kgs)
Certification	CE ISO
