

Automatic ATEX Mineral Spirits Paint Thinners Flammable Chemical Liquid Solvent Gravity Filling Machine

Main Feature

- ▶ Designed for the low viscosity & flammable liquid products like paint solvent, chemical liquid
- ▶ Equipped with PLC control panel, working date setting is more convenient
- ▶ The quantity of filling nozzles can be customized according to production need
- ▶ Independent machine distribution box, the machine meets the explosion-proof testing standards, which can ensure the safe production of products

Parameter

- Machine voltage: 110/220V 1KW
- Filling range: 1000-5000ml
- Filling speed: 10-30BPM
- Filling nozzle quantity: 6 (can be customized)
- Air consumption: 4kgs*30L
- Machine size: About 3000*900*2100mm
- Machine weight: About 350kg
- Package size: About 840*630*1180mm+2160*1280*2250mm
- Package weight: About 135kg+562kg
