

Piston Pump Facial Cleanser Ointment Plastic Squeezable Soft Tube Filling Sealing Machine

Main Feature

- ▶ High working capacity, it can fill 30-50 pieces soft tube per min
- ▶ This tube filler & sealer has tube positioning function, improves working accuracy
- ▶ Servo piston pump controls filling work, quantitative filling simplifies machine operation.
- ▶ Good for plastic & composite soft tube, it has wider application range
- ▶ Can be made of food grade stainless steel for packaging mustard, sauce

Parameter

- Voltage: 110/220V 50-60HZ 4.5KW
- Tube material: plastic soft tube, composite soft tube
- Tube diameter: $\phi 16$ - $\phi 50$ mm
- Tube length: 80-220mm (customizable)
- Filling capacity: 4-30ml/30-150ml/50-300ml (optional, adjustable))
- Filling method: servo piston filling
- Filling accuracy: $\pm 1\%$
- Production efficiency: 20-50 pieces/min (based on filling volume and filling materials)
- Working air pressure: 0.6-0.8mpa
- Heat sealing power: 3.3KW
- Machine size: About 1050*550*1070mm(L*W*H)
- Package size: About 1720*1110*2030mm(Main Machine)+ About 460*440*1230mm (Cooling Machine)
- Package weight: About 760kg(Main Machine)+ About 37kg(Cooling Machine)
