

SED-200VH Industrial Powder Mixer Pharmaceutical Nutraceutical Chemical

V-type mixer is a mixing equipment for the pharmaceutical industry and other powder and granular materials. It is widely used in pharmaceutical, chemical, food, plastic, cosmetic, ceramics, metallurgy and other industries. It has the characteristics of simple structure, easy operation, convenient maintenance and cleaning, high speed and good mixing effect. The correct operation and use process is helpful for the long-term use of the V-type mixer and the maintenance of the operation performance of the equipment.

Description

This machine is the new machine which in these years we design and make it. Man can set he number of steps peristaltic pumps with microcomputer to perform metering filling (special occasions with ceramic pump).

It has the functions: Automatic filling, automatic plugging and capping. The machine is equipped with special internally unique mechanical hand. These can ensure the plug and the out cover to enter the bottle, so that it achieves fully automatically.

The machine fully meets with new GMP requirements.

Features

- Liquid, Eyedrop filling, plugging &capping machine for the application of round eyedrop bottle or similar ones, auto accomplish product filling, plug place, cap place, cap screw-on.
- The machine is composed by a load turntable, ceramic piston pump(alternative peristaltic pump) &fill nozzles, plug &cap sorter, Plug &cap placer, cap screw-on system, unload tray.

- The bottle loading/unloading is done manually, through loading turntable Ø500mm and unloading tray, or directly from an production line. It is designed and made accordance to GMP regulation.

Product Parameter

Model	SED-200VH
Total Volume:	200L
Capacity:	20-100 kg/batch
Material Fed in Time:	3-5min
Mixing Time:	4-8min
Rotating Speed:	12r/min
Motor Power:	1.1Kw
Rotating Height:	2400mm
Total Weight:	650kgs
Dimension	1600×700×1580
