3. Two arrangement forms: up sliding box and horizontal sliding
4. Main lifting mechanism adopts motor drive transmission
5. Adopting electric motor transmission sliding board
6. Speed up conveyor and steering gear

Technical Parameters

Model		MD-L40
Capacity	Item/min	40
Stack Height	mm	>100mm
Max.Carrying Capacity/Layer	KG	250
Max.Carrying Capacity/Pallet	KG	1500
Installation Power	KW	20
Power	V	380
Air Consumption	L/min	200
Air Pressure	Mpa	7
PLC Input/Output Power	KW	24
