

STB-15

High-Speed Filter Tea Bag Packing Machine

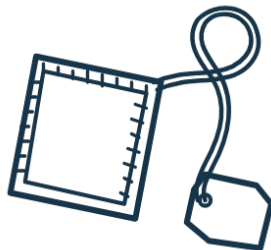

Produce rectangular filter tea bags with string and tag, then count and group the bags for downstream packing.

Finished package

Rectangular filter tea bag with string and tag

The verified STB-15 scope makes bare filter bags. It does not include individual outer-envelope packaging.

Packaging format illustration; final material and dimensions follow sample confirmation.

STB-15 | Reference specifications

Reference output	120-130 bags/min; subject to tea and material
Maximum dosing volume	6 cm ³
Filter bag size	50 x 62.5 mm
Tag size	24 x 28 mm
Thread length	210 ±5 mm
Power	Up to 1.5 kW
Control	PLC with touch screen
Tag configuration	Glue-sealed reference tag; heat-seal option requires confirmation

Actual output, accuracy, materials, utilities and optional equipment must be confirmed in the project technical agreement.

For configuration review: provide tea samples, target dose, bag dimensions, packaging material, required output and destination electrical supply.
