

RX 600 Pillow Packing Machine Systems

Main performance and functional characteristics:

- >High precision photoelectric eyes control follow-up, exact seal position.
- >Main control circuit takes use of single chip and transducer to control drive, well interface for easy operation.
- >Independently control seal temperature, fit for various kinds of packing materials with nice and firm seal.

Usage:

- >Suitable for the packing of biscuit, bread, moon cake, candy, medicine, ordinary paper boxes or salver and such kinds of solid regulated materials.

Technical parameters:

Model	RX 600
Bag Sizes	中心距(Diameter)114 中心距(Diameter)150
	L80-340mm W80-240mm H20-60mm
Packing Speed	15~250 bags/min
Electrical source and power	AC220V, 50-60Hz, 3KW
Total weight	1050kg
Outer dimension	L4200×W1005×H1500mm
