

RGPL-0360A

理瓶灌装贴标生产线

- It is applied for low dose liquid and oil filling, such as shampoo(for hotel), electronic cigarette, eyedrop etc.
- Functions : automatic bottle arranging, filling, plugging, cap screwing, labeling. It is equipped with automatic internal plug arranging and external cap plugging testing which enables non-external plugging without internal plug and elimination of non-external plug.
- The labeling adopts belt rolling structure with fast rolling structure and 8-D adjustment of angle label, which realizes the labeling of two symmetric labels or high-precision labeling.

Main technical parameters:

Scope of filling	10~50ml
Capacity	3000~3600 Psc/h
Filling precision	±1.5%
Material viscosity	≤7000 cp
Air Pressure	0.6~0.8MPa
Power Supply	380/220V (Optional)
