

## **Back Sealing Powder Packing Machine DXDB-F80C**

### **Characteristics:**

1. The back sealing powder packing machine comes with PLC programmable control and an English and Chinese display screen, making it easy to operate and maintain. It is easy to adjust.
2. A photoelectric tracking system and two-way compensation function of the powder packing machine ensure correct and accurate double-face printing and counting.
3. The powder packer shell, made of full stainless steel, is highly corrosion proof, and easy to clean.
4. The back sealing powder packing machine uses a measuring cup for dosing.
5. Options for cutting way: saw-tooth cutting, dashed line cutting
6. Options: ribbon coding machine

### **Usage:**

This back sealing powder packing machine is used for packing loose, non sticky powder materials such as flour, coffee powder, starch, milk powder, all kinds of drugs, chemical powder and so on, providing measuring and automatic packing into sachets. It is used in the medicine, food, and daily chemical industries, etc.

### **Main Technological Parameters:**

<b>Item / Model</b>	<b>DXDB-F80C</b>
Pouch length	50-120mm (adjustable)
Pouch width	20-80mm (should change bag former )
Packing speed	30-50 times/min (based on material and bag size)
Filling capacity	2-50ml
Cutting	Flat cutting, with tear notch.
Applicable film	PET/AL/PE, PET/PE, NY/AL/PE, NY/PE, etc.
Electric source	380V 50Hz (as per customer's request)
Total power	1 Kw
G.W.	260 Kg
Package size	1100*800*1600mm(L×W×H)
